FOR IMMEDIATE RELEASE

Christy Webber Landscapes Purchases Grand Street Gardens

CHICAGO, November 17, 2008 – Christy Webber Landscapes, one of Chicago’s largest landscape contractors and snow removal firms, has acquired Grand Street Gardens (2200 W. Grand at Leavitt).

The acquisition will mark a new direction for the boutique landscape and garden center, including a new focus on supporting the urban gardener. “Christy Webber Landscapes has always been proud of its strong commitment to improving the quality of life for Chicago’s residents through the enhancement of outdoor spaces,” says company President Christy Webber. “Revitalizing this resource from within Chicago’s near-west-side community feels like the right next step for our company.”

Along with continuing to offer the high-quality selection of organic gardening supplies, containers and plants that loyal customers have come to expect from Grand Street Gardens, the store will also offer professional design services combined with experienced installation. Customers can also look forward to a new user-friendly store format and, starting this week, a variety of Christmas trees and winter decorations.

About Christy Webber Landscapes

Christy Webber Landscapes is one of Chicago’s largest commercial and residential landscape and snow removal firms. Since its inception in 1990 as an East Village based business, the company has remained dedicated to serving Chicago’s urban landscaping needs from within the city, and today is responsible for the landscape design and maintenance of many of Chicago’s premiere parks and facilities. Christy Webber Landscapes brings a singular set of experiences, abilities, and qualifications to offer exceptional, prioritized service to Chicago customers.
